EDUCATION

SRI ESHWAR COLLEGE OF
ENGINEERING

NOV 2022 - APRIL 2026

BACHELOR OF COMPUTER
SCIENCE AND ENGINEERING (BE)

CGPA 7.5/10

TECHNICAL SKILLS

PROGRAMMING LANGUAGES

Python, Java, C, Shell Scripting

FRONTEND FRAMEWORK

Streamlit

BACKEND FRAMEWORK

FastAPI, SQLAlchemy

WEB DEVELOPMENT

HTML, TailwindCSS

DATABASES

MySQL, MongoDB, Redis

BIG DATA FRAMEWORKS

Kafka

DASHBOARDING TOOL

Tableau

AWS SERVICES

EC2, S3, RDS, Glue, Step Functions,
IOT Core, Cloudfront, SQS, IAM, VPC

CONTROL SYSTEMS

Git, Github

SYSTEM DESIGN

Relational DBs, NOSQL DBs,
Caching, Partitioning, Sharding,
Scaling, Message Queues, Message
Streams

INTERNSHIPS

1)MERN Stack (By thisUX)

2024

Applied MERN Stack expertise to develop secure APIs and implement database connections for user authentication in dynamic web applications.

Tech stack: React JS, Node JS, Hono JS, SQL

2)Cloud Computing (By DXC Technologies)

2025

Got hands on experience with AWS cloud computing technologies which are used for multiple purposes worldwide.

Tech stack: AWS Core Services: EC2, S3, RDS, IAM, VPC, Lambda

PROJECTS

1) Ecommerce Pipeline CI/CD Automation

- [github link](#) 2024

Tech Stacks: python, Github Actions, Docker, Kubernetes

2)Healthcare Data Pipeline on AWS

- [github link](#) 2025

Tech Stacks: python, AWS Services: S3, Glue, Step Functions

3)Sensor to AWS IOT Core to AWS S3 to dashboard - [github link](#) 2025

Used ESP8266 microcontroller to receive and send data to AWS to display dashboard

Tech Stacks: AWS Iot Core, AWS S3, Tableau

4)Blog App API with DB and Cache - [github link](#) 2026

Used Redis cache and used lazy caching and achieved huge improvement in performance while querying data through cache where response times are while querying from MYSQL is 4-5ms but with cache it is around 120-200µs

Tech Stacks: python, FastAPI, SQLAlchemy, Redis, Docker (with Volume, Network)

CERTIFICATIONS

1. Data Structures and Algorithms using c and cpp (Udemy) - 2022 - [link](#)
2. Learn Python Programming by Abdul Bari (Udemy) - 2024 - [link](#)
3. Dev/Data Ops for Bigdata Course (GrowDataSkills) - 2025 - [link](#)

ACHIEVEMENTS

1. **Hackerrank** – problem solving->2stars, python->3stars
2. Got 3rd position in my class by our team JavaDB Sprint Leap where we need to develop JavaFX Application with MySQLDB with JDBC Driver we developed a pet adoption system – [project link](#)
